

Ohio

On November 19, 2015, leaders from the rural health community from across the country will celebrate **National Rural Health Day** in recognition of the tremendous accomplishments that have been achieved in rural healthcare this year. In support of this recognition, iVantage Health Analytics has developed a data-driven program designed to identify excellence across a broad spectrum of indicators relevant to hospital performance and patient care.

The National Organization of State Offices of Rural Health (NOSORH) and iVantage recognizes Ohio as having 39 hospitals reach top quartile performance status in Quality, Outcomes, Patient Satisfaction, and Financial Strength compared to all acute care hospitals in the nation. The rankings have been designated by the Hospital Strength INDEX™, the assessment of hospital performance in the country to include all rural providers.

2015
