

NARCAN[®] Nasal Spray

Opioid **Overdose Response-Instructions** for Adults and Children

Important: Do not remove the nasal spray until ready to use. For use in nose only!

1. Check for signs of an overdose

Ask and shake

- Will not wake up
- Slow breathing or breathing has stopped
- Drowsy or nodding off
- Skin feels cold to the touch
- Pinpoint pupils

2. Give NARCAN[®] Nasal Spray

Lay person on their back

- Hold the spray with thumb on the bottom of the applicator and your first and middle fingers on either side of the nozzle
- Insert tip of nozzle into either nostril
- Give dose by pressing plunger of applicator
- Remove applicator from nose

3. Call 911 for medical help

Move person to recovery position

- Place person on their side with legs bent and head resting on their arm on the floor
- Stay with them

REPEAT STEP 2 in other nostril with a new NARCAN[®] nasal spray if person does not respond in 2-3 minutes
