

TOWN HALL MEETING

The Opioid Epidemic: Silently Affecting Our Community

Substance use and addiction are affecting more and more families in WNC every day. More than 800 people per week are dying across the US from an opioid overdose. The Macon Overdose Prevention Coalition and Full Circle Recovery Center are hosting a town hall meeting to discuss the impact of prescription pill and heroin use in our community.

What is the problem and why should you care?

What are the signs and symptoms of opioid use?

How does someone go from pills to heroin?

What are the statistics for our community?

Join us for a short presentation and a panel discussion with local experts and community leaders.
