

SORH REVISED PIMS PROPOSAL

Our objective is to identify what we know about SORH Program accomplishments and activities; what we can reasonably find out; and what all SORHs are capable of reporting on to demonstrate outcomes. We determined that it would be ideal if we could tie at least one reporting measure in PIMS to each objective. We currently collect data for Program Objective 3 but are proposing the attached collection measures for Program Objectives 1 and 2.

Program Objective 1, Collect and Disseminate Information

Information Disseminated

Number of people on listserv

Number of people receiving newsletter (via mail or electronic)

Number of website hits

-include information on most popular sections of website (if known):

Is the audience/membership for the listserv the same as for the newsletter: YES/NO

Is the listserv one-way information or interactive?

Information Created or Developed

Optional Section – Complete only if applicable:

Grantees will check each one of the following materials created or developed, with an option for new, updated (substantive updates) or NA.

Fact Sheets

Toolkits

Maps

Conferences (hosted or co-hosted)

Articles

Webinars

Website Updates

Newsletter

-how many newsletter issues per year (if known):

-how many listserv posts distributed per year (if known):

Other:

Describe one tool that you created to address a problem in your state. Provide information on the issue, tool developed to address the issue, how it was implemented and the resolution. TEXTBOX for this.

Program Objective 2, Coordinate rural health care activities in the state in order to avoid redundancy

Collaborative Efforts by 1) topic area and 2) type of audience:

Topic Area

Rural Health Network (CONVENED/ATTENDED/NOT APPLICABLE)

Needs Assessment

Workforce

Telehealth

Tribal

Older Adults/Aging
Behavioral Health
Community Development
Population Health
Opioids
Veterans
Oral Health
Transportation
Grant Writing
Other: ***this should be text box, allowing grantees to fill in other topics.***

Collaborated With:

Other HRSA grantees
Other state agencies
Policymakers
CAHs
Small Rural Hospitals
FQHCs
RHCs
Workforce Programs
National Organizations
Educational Institutions
Associations
Networks
Advisory Boards/Committees/Workgroups
Other: ***this should be text box, allowing grantees to fill in other entities.***

Describe one collaborative effort in your state that resulted in increased engagement on issues and/or strengthened partnerships that helped further the goals of the SORH? Include information on who the SORH coordinated with, for what purpose as well as the outcome of that collaboration. TEXTBOX for this

Program Objective 3, Provide technical assistance (TA) to public and non-profit private entities

These measures already exist – no changes:

Technical Assistance Encounter:

Face to Face
Teleconference
Webinar
In-Depth Email or Telephone
Other:

Clients Served (Unduplicated):

Communities
Government Officials
Academic Institutions
Associations
Agencies

Networks

EMS

Clinics

Hospitals

Providers

Other:

**Substantive is defined as updated materials that are in depth changes to the document. For example, changing dates from 2017 to 2018 and making corresponding date changes throughout a document would NOT be included but adding or editing materials based on research findings, statistics or changes in policy are considered substantive changes.*
