To participate in the monthly Lilypad[®] webinars, click on the hyperlinked topic title next to each session. The link will take you to a webinar registration page and calendar invite.

Lilypad[®] is a Maine-based analytics firm that provides mobile and web-based applications for healthcare provider organizations. We adhere to the core principle that healthcare leaders require sound data and simple, innovative tools to empower change within the value-based care delivery environment.

Lilypad[®] partners with the National Organization of State Offices of Rural Health (NOSORH), individual State Offices of Rural Health and national rural researchers to offer this unique performance improvement tracking tool at no cost to rural and safety-net participants across the country.
