

Session Description:

In this webinar, you'll learn about Community Development Corporations –what we sometimes refer to as the “other CDCs.” Community developers work to improve health in lower-income places by providing access to healthy homes, economic opportunity, fresh food, safe places to play, community engagement, and more. Partnering with these organizations to address social determinants of health can help us achieve our common goals, improving health and increasing opportunity in rural communities across the country.

WEBINAR

Introduction to Community Development and Building Cross-Sector Health Partnerships

Date: Tuesday & Wednesday, August 18 & 19, 2020
2-day virtual workshop

Time: 3:00 – 4:00 PM (Eastern Time)

Intended Audience: State Offices of Rural Health and their stakeholders interested in forming health partnerships with the community development sector to impact rural health initiatives.

Learning Objectives:

1. Understand the role of the community development sector in supporting place-based healthcare investments and maximizing positive impact on community needs.
2. Access practical tools to identify potential community development partners across the country and resources to advance similar successful cross-sector partnerships.
3. Learn how to apply these tools and learnings to the rural communities where we work and live.

Presenter:

Douglas Jutte, MD, MPH
Executive Director of Build Healthy Places Network
