

Cultural Competency Training

Grantee is required to complete the Health Equity Learning Bundle training plan via TRAIN Wyoming.

- (i) To complete this training, visit https://www.train.org/WYOMING/training_plan/3776
- (ii) Grantee may have to create an account and register if Grantee does not already have a TRAIN Wyoming account.
- (iii) Grantee must complete at least two (2) of the Background courses, at least four (4) of the Finding Solutions courses, and at least one (1) of the optional Special Topics courses.
- (iv) Grantee must submit the certificate of completion for the Health Equity Learning Bundle in conjunction with Attachment B, Invoice and Service Confirmation, prior to receiving payment.

The course we use is a "Health Equity Learning Bundle" developed by the Public Health Foundation. It is free to us via Wyoming's CDC Train website, and is likely free to other entities as well, though you may want to double check with PHF. The training required comes out to about 8 hours total (depending on which units they choose to complete).
