State Offices of Rural Health

presented by

CEARH

Center for Economic Analysis of Rural Health

SESSION DESCRIPTION

This webinar is the second of a two part series. We will briefly review economic development (ED): what it is, why communities “do” ED, and the primary stakeholders who are involved in ED efforts.

We will devote most of this webinar to health care leaders sharing their economic development success stories. They will explain how they have played an active role in local or regional ED initiatives. They will also share how these projects benefited the local health care sector. And most important, serve to inspire other health care leaders to take a more active role in local ED initiatives.

WEBINAR

Economic Development for Health Care Leaders, Part Two

Date: Wednesday April 6th, 2022

Time: 3:00-4:00pm (ET)

Intended Audiences: State Offices of Rural Health, Hospital and Clinic Administrators, Public Health Leadership

Following the session, participants will be able to:

- Understand what economic development (ED) is and why it is important for health care leadership to be aware of ED initiatives.
- Understand ways to become more involved in local ED activities and initiatives.
- Use the success stories presented by health care leaders to inspire action toward becoming more involved in local ED initiatives.

Presenters:

Alison Davis
Director, CEARH
Professor, Agricultural
Economics
University of Kentucky

Marie Barry
Director, Community
Economic Development,
Rural Wisconsin Health
Cooperative
