A photograph of a wooden suspension bridge in a mountainous area. The bridge is made of weathered wood and has a simple wooden railing. It spans a deep valley with a river or stream below. The surrounding landscape is rugged, with rocky hillsides and sparse vegetation. The text "What can we do?" is overlaid in white in the center of the image.

What can we do?

The Dilemma

- Do we hire new graduates?
- How can we provide the support they need with limited human resources?
- How can we afford solutions without breaking the bank?
